Sandusky's Ohio Veterans Home to undergo \$8.2M renovation

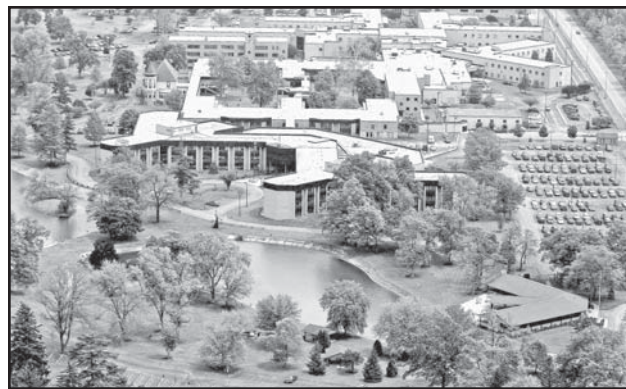

The State of Ohio's Capital Budget (House Bill 529) is providing \$8,190,312 to the Ohio Department of Veterans Service (DVS) for a number of capital projects at the Ohio Veterans Home (OVH) in Sandusky. OVH in Sandusky is a 427-bed nursing home facility with two levels of care offered including standard care for those veterans in need of any intermediate level of care as well as special care for veterans with Alzheimer's disease and other types of dementia.

The renovations at OVH in Sandusky include:

- Replacement of furniture
- Communication center renovation
- Electrical distribution and chiller upgrade
- Perimeter fencing replacement
- Campus grounds and courtyard renovations
- Call light replacement, tub room, and wall renovations

Melanie Amato, chief of communications at the Ohio Department of Veteran Services, said, "The renovations are to make the home more appropriate for person-centered care of the residents, reduce the institutional

look for a more homelike appearance, and replace aging equipment before it becomes obsolete or has catastrophic failures."

Amato noted that the appropriations in the Capital Budget will be available on July 1, 2018 and the project planning and sequencing will be determined by the Ohio Facilities Construction Commission (OFCC). The projects will affect the entire campus and residential building.

The architects, engineers, and contractors for the project have not been selected yet, but OFCC will insure that qualified architects and contractors will be properly sourced per the Ohio Revised Code, noted Amato.

When discussing the services provided by the home, Amato said, "The Sandusky Home, in addition to offering standard care and special care in its licensed nursing home, also offers Veterans Hall (DOM), a domiciliary for those who are able to function in an independent living situation, and DOM+ for those requiring very limited assistance (supervised care) but who do not require the level of care provided to nursing home residents. The home offers a quality of life which emphasizes privacy, encourages independence, provides comfort and security, and meets social needs."

Amato also noted that there is a great deal of activities for veterans who reside at the home.

"Veteran organizations and other groups freely give both personal and financial support for on-campus recreational programs, offering the residents bingo (with prizes), gifts, seasonal treats, movies, dances, etc. Sports fans may watch Sandusky and St. Mary's High School sports, American Legion baseball, and local amateur league softball games, which are played daily on the home diamonds. A well-equipped recreation center offers pool, darts, table games,

a TV lounge, library, and a screened patio," said Amato.

The Ohio Veterans Homes have a long history dating back to 1886. The homes are a State of Ohio establishment comprised of three unique facilities – a nursing home located in Georgetown, Ohio (approximately 45 miles east of Cincinnati), and a nursing home and a domiciliary located in Sandusky.

In 1950, the Home broadened its services to include nursing home care. In 1969, the Ohio legislature welcomed female veterans to become residents. By 1970, a larger, more up-to-date facility was needed to meet the needs of an aging veteran population and through the combined efforts of the board of trustees, veterans' organizations and the VA, construction began on a new 300-bed facility.

In 1992, the Veterans Hall Domiciliary was dedicated for veterans who are able to pursue a more independent lifestyle. Veterans Hall linked all living and service areas for the comfort, safety, and convenience of all residents.

Today, there are approximately 600 residents at the Sandusky Home. The facilities employ more than 600 full- and part-time employees.
